SUMMARY

Backend-focused Full Stack Developer skilled in **MERN** stack, **NestJS**, and TypeScript. Experienced in building REST APIs, authentication systems, and secure web applications using modern backend technologies.

EDUCATION

Far Western University | Mahendranagar, Kanchanpur

2021 – 2025

BSc. CSIT

Bhanu Technical Secondary School | Dodhara, Kanchanpur

2015 – 2019

Computer Engineering

EXPERIENCES

Momiji International Academy | Samakhushi, Kathmandu

2025 – Present

Software Developer

- Developed and managed a WordPress-based mock test platform for students.
- Customized online examination workflows and test management features.
- Integrated **eSewa payment gateway** for purchasing mock tests and services.

Sofsee Tech | Mahendranagar, Kanchanpur

2023 (3-month internship)

Internship (Android Development)

- Developed Flutter applications with Firebase authentication and database integration.
- Gained hands-on experience in mobile UI/UX design and state management.

PROJECTS

Password Management System

Developed a secure backend application for managing and storing account credentials with encryption and recoverability features.

- Built a RESTful API using **Node.js**, **Express**, and **MongoDB** for secure password storage and updates.
- Implemented **AES-256-CBC** encryption with random IVs and environment-based key management.
- Designed a password versioning system to maintain history of old credentials for recoverability.
- Applied a compound unique index on service, owner, and account number to prevent duplicates.

E-Commerce Backend API

*Developed a scalable e-commerce backend application using **NestJS**, **Prisma**, and **PostgreSQL** with secure authentication and modular architecture.*

- Built RESTful APIs for product management, user authentication, cart, and order processing.
- Implemented JWT-based authentication and role-based authorization.
- Used Prisma ORM with PostgreSQL for efficient database modeling and queries.
- Designed modular backend architecture using controllers, services, modules, and DTO validation.

SKILLS

- **Backend Development:** Node.js, Express.js, NestJS, TypeScript, PHP, REST API Development
- **Frontend:** React.js, JavaScript, HTML, CSS
- **Database & ORM:** MongoDB, PostgreSQL, MySQL, Prisma, Mongoose
- **Authentication & Security:** JWT, bcrypt, AES Encryption
- **Tools & Platforms:** Git, GitHub, Postman, Firebase
